

Hot AXIOS™

Stent and Electrocautery
Enhanced Delivery System

*The first stent CE Marked for endoscopic
ultrasound guided transluminal therapy*

Cautery-enabled access and delivery catheter
with the preloaded therapeutic AXIOS Stent
for an exchange-free procedure.

- Proprietary one-step combined diathermic ring and cut-wire provides easy access into target tissue
- Perpendicular flanges secure tissue layers and help to prevent migration
- Stent creates anastomotic conduit between two lumens
- Large diameter fully covered lumen apposing stent enables drainage and passage of the endoscope for additional therapeutic procedures

Hot AXIOS™ Stent and Electrocautery Enhanced Delivery System

Indicated for use to facilitate transgastric or transduodenal endoscopic drainage of a pancreatic pseudocyst, walled off necrosis (>/= 70% fluid content) or the biliary tract.*
